ADDENDUM FOR ORGANIC GOODS TO THE EUROPEAN UNION (EU)

* delete/specify as applicable

Date

These terms are an addendum attaching to and forming part of contract dated

QUALITY

* Warranted to contain at time and place of discharge.

* Official certificate of inspection at time of loading into the ocean carrying vessel, or truck, or wagon, or other space in which the goods are carried, shall be final as to quality.

ORGANIC CERTIFICATION

The goods have to be organically produced and sourced from producers using environmentally friendly agricultural production techniques in accordance with the official standards of the EU in force at the date of this contract under Council Regulation EC 2092/91 and as modified.

In addition to the shipping documents required under the terms of the contract, Sellers shall provide Buyers with a Certificate of inspection for import of products from organic production into the European Union as required by Commission Regulation 1788/2001, including: -

(a) Cleanliness certificates shall be provided by for containers, or if in bulk for the ship's holds, and

(b) * Tracking and tracing documentation.

TRACEABILITY

The parties shall maintain a record of this contract with the name of their buyer and seller, as the case maybe, for a period of 5 years, for retroactive tracking if and when needed. Where agreed the sellers shall provide buyers with *tracking and tracing documentation.

LABELLING

If in bulk the document accompanying the goods, (or, if this is not possible, the document provided with the shipping documents), or if in bags, the label on the bags shall show the name and address of the Sellers, the name of the importer, the description of the goods, whether they are organic, and quality components where applicable, nett weight, reference number and/or batch numbers.

Condition. Shipment shall be made in good condition.
