

Export data for France are not complete since April 2024. Export data for Bulgaria and Ireland are not complete since the beginning of marketing year 2023/24. The Commission services are in contact with member states concerned working to resolve the issue.

Weekly Taxud data (imports and exports) are also available on Agri-food Data Portal on Europa webpage

<https://agridata.ec.europa.eu/extensions/DataPortal/trade.html>

Trade monitoring through customs surveillance data

The TAXUD surveillance system ("customs surveillance") records and centralizes all trade data (import and exports) directly from the national customs authorities on a daily basis. For each transaction, the stored data contain the information available on the Single Administrative Document (SAD), including the volume and origin of the consignment. Surveillance system does not include intra-trade data.

According to Art.55(2) of Commission Implementing Regulation (EU) 2015/2447, the customs authorities shall provide the Commission at least once a week with data on customs declarations for the goods that have been made subject to surveillance at release for free circulation or at export.

The "customs surveillance" data provide actual and prompt information about the trade (import/export) transaction in terms of volume and origin or destination. The European Commission aims to improve data quality and provide as recent and accurate information as possible. However, Surveillance data are created on the basis of declarations that may be modified, corrected or deleted. Additionally, the legal basis (Regulation (EU) 2015/2447) allows that on specific occasions declaration data may be forwarded with a delay. Therefore, it cannot be guaranteed that information provided is free of errors or that it will not be amended. The European Commission accepts no responsibility with regard to such problems incurred as a result of using these data.

Publication of data

This report is published on a weekly basis. In case of a technical issue or another constraint causing delay of the publication, please note that the next upload will be done in the coming days at 12h or 16h.

The data are expressed in quantity of the product itself, unless otherwise stated.

Below the specifications of the products included in the report.
