

Export data for France are not complete since the beginning of calendar year 2024. Export data for Bulgaria and Ireland are not complete since the beginning of marketing year 2023/24. Export data for Greece are not complete since January 2026. The Commission services are in contact with member states concerned working to resolve the issues.

*The anomalously **high durum wheat export** figures reported by Romania for 2025/26 may be linked to a reporting error that has been identified, with corrective steps reportedly underway.*

Weekly Taxud data (imports and exports) are also available on Agri-food Data Portal on Europa webpage

<https://agridata.ec.europa.eu/extensions/DataPortal/trade.html>

Trade monitoring through customs surveillance data

The TAXUD surveillance system ("customs surveillance") records and centralizes all trade data (import and exports) directly from the national customs authorities on a daily basis. For each transaction, the stored data contain the information available on the Single Administrative Document (SAD), including the volume and origin of the consignment. Surveillance system does not include intra-trade data.

According to Art.55(2) of Commission Implementing Regulation (EU) 2015/2447, the customs authorities shall provide the Commission at least once a week with data on customs declarations for the goods that have been made subject to surveillance at release for free circulation or at export.

The "customs surveillance" data provide actual and prompt information about the trade (import/export) transaction in terms of volume and origin or destination. The European Commission aims to improve data quality and provide as recent and accurate information as possible. However, Surveillance data are created on the basis of declarations that may be modified, corrected or deleted. Additionally, the legal basis (Regulation (EU) 2015/2447) allows that on specific occasions declaration data may be forwarded with a delay. Therefore, it cannot be guaranteed that information provided is free of errors or that it will not be amended. The European Commission accepts no responsibility with regard to such problems incurred as a result of using these data.

Note: Since 6th November 2016 the export and import licenses are no longer required for the major part of the trade in cereals in application of Regulations (EU) 2016/1237 and 2016/1239 of 18 May 2016.

Publication of data

This report is published on a weekly basis. In case of a technical issue or another constraint causing delay of the publication, please note that the next upload will be done in the coming days at 12h or 16h.

The data are expressed in quantity of the product itself, unless otherwise stated
Below the specifications of the products included in the report

Product	CN code	Conversion factor grain equivalent
Common wheat	1001 99 00	
Common wheat flour (grain equiv.)	1101 00 15	1.37
Durum wheat	1001 19 00	
Durum wheat meal (grain equiv.)	1103 11 10	1.5
Barley	1003 90 00	
Malt (Barley equiv.)	1107 10 91, 1107 10 99	1.27
Maize	1005 90 00	
Rye	1002 90 00	
Oats	1004 90 00	
Sorghum	1007 90 00	
Residues of starch manufacture	2303 10 19	
Maize gluten feed	2309 90 20	
Brewing and distilling dregs and waste	2303 30 00	
Citrus pulp residues	2308 00 40 TARIC_ex 10	

- data on malt expressed in barley equivalent are included;
- data on wheat flour and durum wheat meal are expressed only in grain equivalent
- the weekly reference period is from Monday to Sunday
