

WEEKLY RICE CIRCULAR,
ISSUED BY THE LONDON RICE BROKERS' ASSOCIATION, 16TH JULY, 1869.

Registered for Transmission Abroad

[Entered at Stationers' Hall.

LONDON, *Thursday Evening, 15th July, 1869.*

With the large number of cargoes now due or overdue, together with the heavy stocks held in the United Kingdom, and on the Continent, the market remains in the same dull condition as for some time past. For distant cargoes there appears to be some enquiry, but sellers are holding for higher rates.

For landed parcels the market has been equally flat and prices have ruled in buyers' favor. The greater part of the Rice offered in public sale was bought in at nominal rates.
