

Gafta Approved Register of Analysts
Submitting evidence of accreditation to ISO17025

Please use the following checklist to ensure you provide Gafta with all the relevant information for the Approved Register of Analysts. Please refer to the Gafta website www.gafta.com/analysts regarding the new Code of Practice for Analysts. Please see overleaf for additional notes to help you submit the correct information.

1. Laboratory Name:

Gafta Membership Number(s): *if known*

ISO17025 Accreditation Certificate expiry date:

2. Gafta Approved Laboratories/Sites for which you are providing evidence:

Gafta Lab Number <i>if known</i>	City/Location	Country

3. Methods for which you are accredited:

We **do not** accept any methods other than those listed on the Gafta No.130, the majority of which are ISO Methods

	Method(s) Accredited <i>(from Gafta No.130 Register of Analytical Methods)</i>	Certificate page number or reference
Feed:		
Ash		
Fibre		
Moisture		
Oil		
Protein		
Grain:		
Moisture		
Protein		

Please ensure you attach a copy of your certificate of accreditation with the full scope.

Send to ApprovedRegisters@gafta.com

Notes:

If your organisation does not hold accreditation to ISO17025 the alternative is to apply to be audited to the Gafta Standard for Analysis and Testing. Please email ApprovedRegisters@gafta.com to make an application.

1. Is your ISO17025 accreditation certificate to the latest version available, and is it still valid?

Please ensure your certificate clearly displays the expiry date. If it does not, please supply evidence from the accreditation body of the validity of your certificate.

2. Does your ISO17025 accreditation cover all laboratories/sites you wish to be approved by Gafta?

All sites which require Gafta approval need to be covered by the certificate of accreditation. Please list the sites for which you are providing evidence, and ensure they are included in your certificate.

If you have any laboratories/sites missing, you will need to either:

Apply for an amendment to your accreditation

OR

Apply for those sites to undertake an audit to the Gafta Standard for Analysis and Testing

3. Does your ISO17025 accreditation cover all the tests required for your approval?

If you do not wish to be approved for both feed and grain, please insert N/A in the appropriate box.

*Please note that the method for each test **must be listed** on [the Gafta No.130 Register of Analytical Methods](#).*

Where there is more than one available method listed (per analyte) please ensure you are accredited to the method most frequently used by your laboratory.

*We **do not** accept any methods other than those listed on the Gafta No.130, the majority of which are ISO Methods*

Where in-house methods are used, you must provide evidence that the method used has been validated against the appropriate method listed on the Gafta No.130 Register of Analytical Methods.

4. Is your certificate in English?

To enable us to ensure you meet the requirements, please supply English translations of the appropriate parts of your certificate and scope as detailed in the form. You do not have to provide a full translation of the entire certificate/scope.

If you have any laboratories currently listed on the Register which are not covered by your accreditation, please list them here and indicate your intentions:

Gafta Lab Number (if known)	City/Location	Country	We intend to: (delete as appropriate)
			Amend Accreditation Apply for Gafta audit
			Amend Accreditation Apply for Gafta audit
			Amend Accreditation Apply for Gafta audit
